Q: What aspects of the course were most useful for your learning?

- 1 I appreciated the weekly email that was sent out about that weeks materials and I liked that you always made sure to make yourself available to help students.
- 2 The videos that were included with each module.
- 3 Discussion
- 4 The Trauma Research paper was helpful in applying what I have learned to my own traumatic experience.
- 5 I really enjoyed the way this class was formatted. I was a little nervous about taking an online class in the beginning but I ended up really enjoying it.
- 6 I think the time frame for assignments was very helpful. With more time, I had more time to prepare. I also think the materials included were very interesting and everything was strategically planned.
- 7 I really enjoyed this class, and even when I was confused at the beginning of the semester between my Intro to Trauma and my Trauma Across the Lifespan classes, Kpoti was really helpful in getting me navigated back to a non-confusing state. Great class with excellent topics. I'll be utilizing a lot of what I learned in this class in my career.
- 8 I enjoyed how it was laid out each week and how responsive the teacher was.
- 9 Because it was an only class, I thought the interactive discussions were very beneficial. They helped me to make sure I was understanding the material and see things from other peoples perspectives. I also found the tedtalks very interesting and the articles were informative.
- 10 Kpoti was undoubtedly the best online teacher I've had. He was informative, flexible, and very engaged with his student. I would

recommend him to future students 100%!

- 11 I felt like the weekly materials were helpful and very supplemental to completing the quizzes.

Q: When this class is taught again, what changes would you suggest?

- 1 N/A
- 2 Align the quizzes better with material in the readings.
- 3 x
- 4 At times, the wording of the quizzes was difficult to understand.
- 5 I would suggest having more quizzes. I think they really helped me understand the class content more.
- 6 I would suggest more lectures from the instructor. Everything is from outside sources, so maybe more of a presence of the instructor.
- 7 None
- 8 I would suggest different readings. It is hard to be required to read such long research articles. I think there are more beneficial readings and videos that would lay out the same information in an easier to understand way.
- 9 I think that it could be helpful to have some of the material lectured by an actual person. I find recorded lectures to be useful since you can go back and watch them and I believe that could've helped me review for the quizzes better (especially the midterm). If not recorded lectures, perhaps brief study guides for the quizzes.
- 10 The only thing I would suggest is either a different course book or just totally online selections. The coursebook felt repetitive of the other things we were learning.
- 11 I did not think that the midterm was very accurate in the information. I felt a lot of the questions were open-ended and did not have clear answers. I did well on all of the quizzes and struggled on the midterm.

Q: What else would you like the instructor to know about your experience in this course?

- 1 This course provided me with a lot of valuable information about trauma that will be helpful to me in all aspects of my life, not just my future career.
- 2 x
- 3 I really enjoyed being in this course. I think it will really help me for my future career!
- 4 This class really facilitated my learning on this subject. I found everything very interesting and found myself talking about aspects of this class to others.
- 5 Thank you for everything!
- 6 I found the material for this course really interesting and intend to take this knowledge with me. Hopefully I can deal with my own trauma and help others with theirs as well. I'm really happy that this is a class being taught and I'm glad my advisor recommended it to me. I'll definitely be recommending this class to peers of mine.
- 7 You're awesome, Kpoti!
- 8 I really liked the weekly emails from the instructor and the instructor was extremely accommodating with extra credit opportunities. The communication was very open and I appreciated how they would adjust quiz answers based on our feedback.
